

“From our mountain community; For our children and families.”

NGAF Pathway Program

NGAF Pathway Program is an effective transition services program for high school students. Starting in 9th grade, each student would begin with a Pathway Profile leading to a Pathway Plan to support the student’s transition plan. NGAF will provide individualized, tailored services beyond the limited services provided by GVRA. The NGAF Pathway Team will work inclusively with the student, the student’s family, the school system staff, businesses and outside agencies. The goal of the NGAF Pathway Program is help prepare young adults to reach their full potential by living a full and rewarding life as independently as possible.
